The Lord revealed that the decade of 2020s will be a historic transitional decade where many things will shift and change drastically.

**Word for 2020:
New Beginning,
New Normal,
Divine Upgrade**

The Lord spoke that He would “flip the page” of human history and move the world into a new beginning and new chapter of His storyline. The New Normal in the negative consists of greater challenges, fiercer storms, increasing darkness, unprecedented pressures, and uncertainty.

Yet, He is bringing restoration and revival to the Church so that what is normal in the Book of Acts will be the New Normal for us!

He is upgrading us to move in greater signs, wonders and supernatural works, with greater authority and power at the place of prayer, and in greater understanding and reality of the spirit realm.
